Potential or observed collapse of buildings and structures
Communities isolated by flood waters
Critical infrastructure for communities disabled
Large number of evacuees

No new impacts expected from flooding, however there still may be standing water following flooding
Flooded properties
Flooding or damaged infrastructure

Recommended actions

Be prepared to act on your flood plan.
Prepare a flood kit of essential items.
Avoid walking, cycling or driving through floodwater.
Farmers should consider moving livestock and equipment away from areas likely to flood.

Protect yourself, your family and help others.
Move family, pets and valuables to a safe place.
Turn off gas, electricity and water supplies if safe to do so.
Put flood protection equipment in place.
If you are caught in a flash flood, get to higher ground.

Stay in a safe place with a means of escape.
Be ready should you need to evacuate from your home.
Cooperate with the emergency services.
Call 999 if you are in immediate danger
Call Floodline for up to date information.

Be careful. Flood water may still be around for several days and be contaminated.
If you have been flooded, ring your insurance company as soon as possible.
